VICTIM OF COCAINE IS PROMINENT MAN

Dr. W. S. Mullins Formerly of Henderson Dies at Riverside Hospital This Morning.

WAS ADDICTED TO THE DRINK HABIT

Suffering from cocaine poisoning and in a semi-conscious condition, Dr. W. S. Mullins, formerly of Henderson, Ky., and at one time professor in the Homeopathic Medical college in Louisville, was removed from his office in the Eagle building last night to the Riverside hospital, where he died early this morning without regaining consciousness. Coroner Baker will hold the inquest this afternoon.

Whether it was suicide or an overdose of a drug to which the victim was addicted or took to quiet his nerves, wrecked by drinking, no one knows. The condition of Dr. Mullins was discovered last night by the porter of the Eagle building, who heard him crying in his room. The porter told Patrolmen Singery and Cross who notified Dr. Bass that the man was in a dangerous condition.

Dr. Bass who responded promptly, recognized the symptoms of cocaine poisoning and sent the patient to Riverside hospital, where medical resources were unavailing.

Dr. Mullins was 53 years old and leaves a wife and family in Henderson. He had been in Paducah about three weeks.

In Henderson the unfortunate man bore a fine reputation, and he practiced among the best families in the city for nearly a dozen years. From there he went to Louisville about ten years ago and held a chair in the Homeopathic institution. He remained in Louisville seven years and returned to Henderson.

After practicing in Henderson three years he came to Paducah, but left his family temporarily in Henderson.

He was addicted to strong drink and a few days ago Dr. H. P. Sights, who formerly lived in Henderson, treated the victim for nervous trouble, resulting from a spree.

New Orleans, Oct. 4.—The students of Tulane University of New Orleans have agreed to abandon the old form of hazing and substitute what will amount to a mud bath for those of inferior strength. The boys will attempt to pull each other across the pond.

SHAKES HANDS WITH KING.
Anarchist Dutto Entertains Victor Emmanuel.

New York, Oct. 4.—A special cable from Milan, Italy, printed here, states that excitement has been caused by the discovery that the notorious anarchist, Dutto, lately gained admission to the palace at Racconigi and shook hands with King Victor Emmanuel. Dutto, who represented himself as a professional entertainer, applied to the police for permission to give a biograph show in the palace. The police applied to the palace officials, who obtained the king's consent. The show went off successfully and the king rewarded the entertainer generously. When his Majesty bade farewell to Dutto, he shook hands with him.

Russians Say It Is As Bad As Their Massacres.

St. Petersburg, Oct. 4.—Several newspapers have published editorial articles on the events at Atlanta, Ga., comparing them with the anti-Jewish massacre in Russia. The Novoye Vremya expresses the hope that the United States now will cease to attribute the Russian excesses to official provocation, instead of admitting that they are the result of natural racial animosity.

WORK ON CHURCH WALLS IS SUBLIME

Paintings Descriptive of the Life of Christ.

Decorated Interior of St. Francis De Sales Will Be Dignified and Harmonious.

IS NOW NEARING COMPLETION.

The work of decorating St. Francis de Sales church, which was begun July 19 and is now nearing completion, is probably the most effective and elaborate piece of work of this character ever done in Paducah. Mr. H. H. Meyer and his wife, of Paducah are the artists, and they are to be commended for the dignity and harmony of the whole.

Mr. Meyer has been engaged in this line of work throughout the United States for something over twenty years, and Mrs. Meyer is a former pupil, who has assisted in his work for several years. The movement to decorate the church was inaugurated by the Rev. Father Lambert, S. J., during his recent mission and is a testimonial to the love which Father Jansen's twenty years of devoted labor in this parish has borne.

Father Jansen will celebrate the twenty-fifth anniversary of his entry into the priesthood in November, 1907, and it was greatly desired to have the work completed before that time. The subscription progressed with such enthusiasm, however, that the necessary funds were soon provided and the decorating began at once. And now, when the work will soon be completed, the parishioners of St. Francis de Sales may well be pardoned for their pride in its beauty. A brief description of the scheme may not be amiss.

The walls are adorned with a series of striking pictures illustrating with much feeling the most important incidents of our Savior's life. Over the large altar is a group, representing the Exposition of the Blessed Sacrament. This group is surrounded by the four doctors of the church: St. Francis de Sales, St. Alphonsus Liguori, St. Augustine and St. Thomas Aquinas.

On the side panels of the sanctuary are two groups, one illustrative of the Visitation of the Blessed Virgin to her cousin, St. Elizabeth, and the other the Annunciation to the Blessed Virgin.

The body color, a delicate pastel green, is embellished by scroll and stucco work. The arches and ribs of the ceiling are trimmed in tawny and gold leaf. The massive columns and the wainscoting are to be marbleized, which will further enhance the beauty of the interior.

The large groups on the sides of the auditorium are executed with much skill and feeling, and portray some of the sweetest and most moving incidents in the life of The Christ. They are: The Sermon on the Mount, Return of the Prodigal Son, Christ Delivering the Keys to St. Peter, Christ as the Friend of Little Children, St. Mary Magdalene wiping the feet of our Lord with her hair at the house of Simon, Christ commanding His Apostles to go teach all nations. In the rear of the church under the gallery will be two imposing pictures: The Agony in the Garden, and the other The Angel of Dawn.

Those who believe that a church should be worthy of its sacred purpose, will be charmed with the subdued beauty and religious significance of the subjects chosen.

Segenreich's mother wrote him that the marriage would not take place unless the bride could have a dowry. Segenreich sent \$25, and then stole the bank book of Max Brier, his friend, and obtained the \$150 Brier had on deposit. This he sent to Russia, and it is supposed the wedding took place. Segenreich today was sent to the Green Bay reformatory for one year.

Delegates Present From Every Section of Southwestern Kentucky.

Mayor Turns Over Keys of City to The Visitors and the Convention Gets Down to Work.

ADJOURNED UNTIL TWO O'CLOCK.

West Kentucky's first immigration convention opened this morning shortly after 10 o'clock with 175 delegates in attendance at The Kentucky theater.

The delegates began arriving yesterday and through last night and today every train brought additions to the list. It will be tomorrow morning before all will have arrived.

Chairman D. H. Hughes, of the arrangements committee, opened the convention and Capt. J. F. McCartney, of Metropolis, nominated Capt. W. J. Stone, of Lyon county, Ky., as permanent chairman of the convention. He was elected unanimously and in a well-received speech of acceptance outlined the work of the convention, emphasized the importance of the immigration movement, and gave the Paducah Commercial club full credit for the commencement of a movement, which he is confident will grow into a conspicuous success.

Mayor Yelzer welcomed the delegates to the city and rescinded all restrictions of the law which would conflict with their full enjoyment of their stay in the city. The mayor said today a well-formed child was born—the immigration convention—which would develop into a splendid manhood.

President Joseph L. Friedman, of the Commercial club, welcomed the delegates in behalf of the Commercial club and urged organized effort of west Kentucky and southern Illinois toward a common goal.

State Senator Con Linn, of Murray, responded for the delegates and expressed their willingness to co-operate with Paducah in the immigration movement. Mr. George C. Wallace nominated D. W. Coons, for secretary of the convention, but other work prevented Mr. Coons accepting the nomination. Mr. Will Hummel then nominated Bartley Skinner, of Lyon county, for secretary and he was elected.

Mr. D. W. Coons suggested that the delegates bring their wives and sweethearts and said that any ladies in the city would be more than welcome at any of the sessions.

The permanent organization having been formed, and in view of the greater number of delegates, who

would arrive at noon, Mr. Hughes made a motion that the convention adjourn till 2 o'clock.

This afternoon there will be speaking and the principal work will be to appoint a committee, which shall perfect a permanent immigration bureau with headquarters in this city. There will be no session tonight.

Each delegate registered as he entered the Kentucky, Capt. Ed Farley and W. L. Bower being the committee on registration. Badges also were distributed to the delegates by this committee. Capt. T. J. Moore was in charge of the information bureau, which assigned the delegates to homes while in the city. The hotels could accommodate only a 150, so Capt. Moore got out and secured accommodations in private homes.

Among the Delegates.
Among the delegates attending from other cities are: Capt. W. J. Stone, of Lyon county; Capt. J. F. McCartney, of Metropolis, president of the Metropolis Commercial club, and so pleasantly remembered for his cordial treatment to the visitors from the Paducah Commercial club last Monday evening.

Mr. A. J. Davidson, president of the Frisco system, telegraphed this morning that he would not be able to attend the convention.

Mr. Scott Isbell, of Bowling Green, Ky., is here. H. Herbling, mayor of Wickliffe, with a delegation, will arrive tonight by boat.

Mayor U. S. Shacklett, of Fulton, and delegation will arrive tonight. Mayor Shacklett telegraphed this morning to know if the convention would be held. There are eight in the delegation from Metropolis.

Mr. Phil Hollenbach, of Louisville, a wholesale dealer of that city, is here. H. N. Calhoun, of Cairo; J. H. Little, ex-sheriff of Marshall county; Senator Conn Linn, of Murray; four delegates from Graves county, appointed by the county judge; J. M. Luttrell of Cincinnati; S. T. Payne, of La Center; J. R. Bowler, of Kevil; J. H. Frazer, of Dawson; C. W. Boswell, Mayfield; M. A. Murphy, of Woodville; Charles Linthicum, of Wickliffe; W. T. Wilford, Barlow; J. J. Sanderson, Lone Oak, are in attendance.

Boulder, Col., Oct. 4.—To assuage grief caused by the death of their only child Sheriff Edwin L. Coates and his wife, Florence, have entered the University of Colorado, the wife to take a graduate course and the sheriff to study law. Each is 28 years old. Coates is a Democratic leader, and was postmaster from 1897 to 1901. The marriage of the couple took place shortly after the wife left school. They had one child, who died last spring, aged 6, and their sorrow has been so great that they have taken their doctor's advice to relieve it by concentrated study.

Terrible Threat of His Captors To Cut a Boy's Body To Pieces

New York, Oct. 4.—Mystery surrounds the disappearance of Willie Labarbara, aged four years, supposed to be in the hands of kidnapers, who are demanding \$5,000 ransom from the parents under threats that the boy be killed and his body cut up and scattered about the city un-

less the money is forthcoming. The police have been working on the case since September 23. All efforts to solve the mystery are unavailing. The boy disappeared September 21 and since then four letters have been received, demanding \$5,000 ransom. The police admit they have no clue.

MOST STRATEGIC POSITION TAKEN

Beckham Says Administration Will Be Issue.

Charges That His Opponent Is Fighting Party Organization Before Campaign.

BIG AUDIENCE AT KENTUCKY

In a speech an hour in length at the Kentucky theater last night, Gov. J. C. W. Beckham assumed the strategic position of defending the Democratic state administration against attacks from inside its ranks.

"How could Senator McCreary or General Hays, as nominees of the Democratic party, during the state campaign defend the party against the charges of the Republicans?" he asked. "The issues of the state campaign will not be of tariff or matters of national import. The issues will be whether the Democratic or Republican party will give the state of Kentucky the best government, and on that issue the Democratic party will have to stand by the record of its administration."

The Kentucky theater was filled with an audience composed principally of men. On the stage were D. A. Cross, Democratic candidate for city judge, and others. Mayor Yeager presided and introduced Hon. Hal S. Corbett, who spoke at some length preceding the governor. Mr. Corbett's theme was that the world and this country are undergoing a change, and new issues are arising that require new men, and young men hopeful for the future. In conclusion he pointed to the governor as embodying the progressive spirit of the younger element of Kentucky.

Democracy and challenged his enemies to attack his record.

Governor Beckham on taking the floor regretted the necessity of conducting such a fierce fight as he waged within the ranks of the Democratic party; but he said Senator McCreary and General Hays have attacked the administration and he must defend it.

He then took up the arguments and criticisms of Senator McCreary, beginning with the latter's claims based on his record of four years in the executive chair, ending September 1, 1879. Senator McCreary reduced the tax rate from 45 to 40 cents; but Governor Beckham said he hurt the state's credit and threw the departments into such financial confusion that his successor asked the legislature to restore the five cents. The rate is now 50 cents, but the governor defends the rate on the ground of improvements and extension in the state's work and responsibilities since 1879.

Senator McCreary claims he introduced the agricultural department and the geological survey; but Governor Beckham said the department of agriculture was useless until his administration took it in hand, strengthened it and increased its appropriation, while the abandoned geological survey was revived by his administration.

He said he had been attacked because he signed the dog law but he found that Senator McCreary during his term had signed two of them.

He then entered into an elaborate exposition of what his administration has done for the state, and took up the attacks of General Hays. In regard to the building of the new capitol, he said he had used the same methods employed in the construction of all public buildings and paid the same commissions. He claimed that the architect advocated by General Hays had defrauded the state of tens of thousands of dollars.

He closed with an eulogy for Paducah and the ladies.

He left at noon today in a launch for Smithland, where he speaks this afternoon.

A Tall Tree Yarn.

Scott Cummins, the poet of Winchester, Woods county, was a cow puncher in the northwest many years ago. His outfit came to Snake river one day with 3,000 cattle. Cummins, with a poet's license, relates what happened:

"The river was too dangerous for swimming, but after following the bank a short distance the foreman found a giant redwood tree that had fallen across the river. Fortunately the tree was hollow, and, making a chute, they had no trouble in driving the cattle through the log to the other side.

"As the cattle had not been counted for several days one of the cowboys was stationed to count them as they emerged from the log. The count fell short some 300 head, but about that time a distant bellowing was heard.

"Their surprise may be imagined when, on looking about they found that the cattle had wandered off into a hollow limb."—Kansas City Star.

Cut Her 100-Candle Cake.

Surrounded by four generations of her family and at least fifty descendants, Mrs. Margaret Carpenter celebrated Thursday night her 100th birthday at the home of her son-in-law, Ellis L. Hull, 1102 Gates avenue, Brooklyn. None appeared to be more active or took more notice of what was going on around her than did the centenarian. When the orchestra struck up a waltz Mrs. Carpenter took the initiative and gracefully spun around the room with her 13-year-old great-grandson, Herbert L. Hull, Jr., for a partner.

A feature of the feast was a huge cake with 100 pink and white candles. The aged woman's hand was steady as she cut the cake and gave a piece of it to each guest. She invited all to be present next year, when she would give as souvenirs pieces of her own handiwork. —New York World.

Postponed Liberty.

Little Helen, aged 4, was in a frightful predicament. The nurse, carrying the cherished 2-weeks-old baby up and down before the house had paused to show the new infant to the bishop, who had asked to look at it. And then the tall, grave bishop, of whom Helen stood greatly in awe, had unexpectedly asked the little girl to give him the baby.

How in the world to refuse a request made by such an awe-inspiring person as the bishop the child did not know. But presently she wrinkled her small countenance shrewdly, moved closer to the petitioner, and said, ingratiatingly: "I'll let you have the next." —Harper's Weekly.

At Musicals.

"See to it that Mr. Jones does not drink too much. If he does, he gets dangerous." "Does he fight?" "No, he begins to play the piano." —Translated for Titled from "Megendorfer Blatter."

WHITE SOX WIN LEAGUE PENNANT

Chicago is Champion in The American League.

Only Four Games to Be Played and Can Lose Everyone of Them and Still Lead.

CLEVELAND AND NEW YORK.

Chicago, Oct. 4.—The Chicago American league club became the winner of the pennant for 1906 when both games of a double header at St. Louis yesterday in which the Chicago team was scheduled to play, were called off on account of wet grounds, while Philadelphia and New York split even in two games played at Philadelphia.

The Chicago club cannot be overtaken even though they lose four games yet to be played. The best the New York team can do is to win the remaining three games, in which event they will finish second, just one half a game behind the pennant winners.

Only one game separates Cleveland and New York for second place. Cleveland has four games more to play and if they can win all four, New York losing one, Cleveland will take second place by half a game.

Brave Playing Tanks.

Dick Brahe, the star Indian of the Paducah Kitty team is gathering glory and green backs by serving as an "amateur" with the Metropolis club. Although Dick is growing so fat that his brothers have to assist him in getting on his clothes, he has been pitching great ball for the little city down the river. In a game at Cairo a few days ago against "Cairo's Own," he struck out fourteen, allowed but three hits and won by the score of 11 to 1. In the last game at Metropolis with the Cairo Own as opponents Brahe struck out eighteen, allowed only two hits and won his game by a count of 14 to 0.

The hitting feature that day was Brahe's home run with the bases crowded. The only way for a fat man to pull off a homer is over the fence and that is where he drove it. Then the grand stand dug down in their trousers and handed him \$17.50 in real money.

Bob Hays a Paducah boy, is playing with the Metropolis club, covering first base and catching.

Dictation.

Booth Tarkington does not dictate his stories. He is a foe to the habit of dictation.

"The dictating habit is a growing one," he said recently. "Everybody nowadays has a secretary and dictates."

He smiled.

"When I was in the Indiana legislature," he said, "an old colored man appeared as a witness before one of our committees.

"In the course of his examination these questions were put to the man:

"What is your name?"

"Calloun Clay, sah."

"Can you sign your name?"

"Sah?"

"I ask if you can write your name."

"Well, no, sah; Ah nebbeh writes mar name. Ah dictates it, sah." —Exchange.

what Into Detail.

CLAIMS TO BE PERSECUTED

New York, Oct. 4.—Senator Thomas C. Platt, when asked concerning a published story that his wife, Mrs. Lillian Janeway Platt, was meditating divorce proceedings against him, sent his secretary out from his office in the United States Express building on lower Broadway to the reporters assembled in the outer office with this message:

"Senator Platt says that the published account of his wife's determination to institute divorce proceedings is a string of lies. That is all."

Mrs. Platt said: "These stories about difficulties between myself and my husband are malicious lies."

Notwithstanding these denials, the papers reiterate the stories and insist that the divorce will be brought. It is said that the aged senator, fearing that his wife intended bringing suit for a divorce, decided away the greater part of his resources in order to preclude the possibility of being called upon to make a large settlement on her. It was also stated that Mrs. Platt has been acquainted with her husband's procedure for some time, and is at present striving to ward off the possible loss of a financial adjustment in her favor.

In Toga Lodge, the Platt villa in Highland Mills, the former Widow Janeway said she was the victim of a conspiracy. She said:

"I am not making up this story. I can prove everything I say. I can prove that if it wasn't that I threatened to leave Senator Platt I would have had a guest on that trip the wife of another senator whose name was linked with him in Washington when I was Mrs. Janeway. There are lots of Mae Woods in this affair; dozens of them."

"I blame Senator Platt's relations more than himself. He is a feeble old man, physically very infirm, but his head is all right. He is one of the brightest men in the country today, and don't believe those stories which have him mentally unsound."

"He knew perfectly well what he was doing when he married me, and he told me nothing would do but that I must be his wife. He said that other senators had beautiful wives and he wanted one. He bought my beauty; now let him pay the price."

Frederick Hess, of San Francisco, proprietor of the California Democrat, has been celebrating his golden jubilee as a publisher. In September, 1856, being then 18 years old, he purchased the paper named and has been running it ever since. That he still has great confidence in the future of San Francisco is shown by the fact that although he lost his entire plant at the time of the fire he immediately re-established himself.

The gauge showed a mark of 16.7 at 8 a. m. today, a rise of nine-tenths of a foot in 24 hours. Weather fair and warm. Wind from the south.

The Inverness is due this evening from the Tennessee river with ties.

The Dunbar is due from Evansville today in the Paducah and Evansville trade. The Henry Hanley, according to the schedule, will be Friday's packet between Paducah and that point.

The Saltillo is due tonight from the Tennessee river and will leave for St. Louis as soon as transfers are completed.

The Jim T. Duffy, pushing a big fleet of empties, cleared for the Tennessee at noon to bring out ties for the Ayer-Lord Tie company.

The Kentucky is coming down the Tennessee and should be at Paducah before bedtime.

The Dick Fowler swung out for the trip to Cairo at 8 o'clock this morning with a big passenger list.

All the river men are busy and one boat owner was forced to search for over an hour today to get a second engineer.

Once more has the "dope" of Paducah mariners stood the acid test.

From the oldest to the youngest they all predicted there would be another broken shaft to make out the trio of such accidents to boats plying from the Paducah port. They were right for the steamer Charles Turner was towed into the local harbor early today with her shaft in a bandage.

First the Joe Fowler snapped her shaft and a few days later the City of Savannah was forced to take to the bank from the same cause. Then for several days it looked as if the never failing record of river accidents coming in threes would be smashed, but the Turner came to the relief just at the right moment for the time limit was nearly up. The Turner was dragging out from the bank at Reynoldsburg Island Sunday morning tugging against the current when an old break in the shaft snapped in two with a twang that sent the crew stirring. Capt. E. Gordon, of Paducah, was in command and his men had no trouble in getting the boat to the bank. Her tow of ties was made fast and the Monte Hauver was sent to her aid, arriving today. The Turner was moored at the foot of Elizabeth street and the Shelton Machine company went to work on a new shaft.

While making a short cut at the upper Illinois landing yesterday the steamer Bettie Owen switched her stern against the bank, snapping her main rudder short off. This placed her in an almost helpless shape and the crew had a struggle in getting her to her slip at the foot of Kentucky avenue. All trips to Hookport and the upper landings were canceled for the day leaving Paducah and the Illinois shore without a ferry. A new rudder is being swung on her today and she will be ready for service late this afternoon or tomorrow. While the ferryboat is disabled the railroad transfers and skiffs are taking in the money.

Captain Charles Volght, of the Willford, who had been extremely ill for several days was able to be on duty again today. He left in command of his boat at noon for the lower Ohio to gather in a tow of ties for White & Sons.

Instead of "The frost is on the pumpkin," the rousters have changed it to "The pumpkins are on the rivers." Hundreds of them have floated past Paducah in the past day or two, having been washed from the towlands by the freshly grown cobs and civers. One old negro gathered a big wagon load of them from the drift at the foot of Jefferson street today.

Official Forecasts.
The Ohio at Evansville will continue rising during the next 12 hours, come to a stand, then probably fall for a day or two. At Mt. Vernon, will continue rising during the next 24 hours. At Paducah and Cairo will continue rising during the next four days.

The Tennessee at Florence will continue rising during the next 24 to 36 hours. At Johnsonville, will also during the next several days. Flood stages are indicated for the lower Tennessee river.

The Mississippi from Chester to Cairo, will continue rising.

The choice of a career and the choice of a wife—the most important steps of a man's life—are accidents.

UNAPPRECIATIVE IS THE POLICE JUDGE

Held Public Benefactors To
The Grand Jury.

Attorney Argued That Public Got the
Benefit of Deal in Cheap Ice,
Without Avail.

DOCKET IN THE POLICE COURT.

Ed Vasseur and Hermann Williams former drivers for the H. A. Potter ice company will have to answer to the grand jury for knowingly receiving stolen property. This was the decision of Police Judge E. H. Puryear this morning after reserving it several days.

Vasseur and Williams, it is charged, met another employee of the ice company in a saloon and accepted the tickets, which they disposed of for money. They were ably defended, but the only recourse their attorney had was in a technically or rather a very unusual version of the law in the case. Hon. J. W. Campbell was the attorney, and he held that instead of the defendants getting the benefits of the profits, the public did in a reduction of ice rates. When less than 5 tons of ice is sold at a time, he argued, \$8 per ton is charged, and when more than 5 only \$6 per ton. The boys sold the tickets in small lots at 39 cents the hundred pounds. The bond of both was fixed at \$150 which they will give.

Ford Perry, a young man from the "sticks," acted disorderly on the depot platform last night and was fined \$5 and costs.

Thomas Anthony, colored, was arrested last night with more than an ordinary amount of tobacco and other "junk" in his clothing. He stated he had just "hit town" and was "jerked up" before he knew the principal street's name. He is being held pending investigation.

UNHOLY LOVE

Induced Lawyer to Turn Coachman
at Kenosha.

Kenosha, Wis., Oct. 1.—A domestic tragedy involving prominent people of Woodstock, Ill., was brought to light here this morning, when Edward Conklin, a coachman employed by Harry Boor, the Chicago packer, at his summer home at Twin Lakes, was arraigned on a serious statutory charge, and the evidence brought out the fact that Mrs. Chas. Murphy, wife of P. W. Murphy, one of the wealthiest men of the Illinois city, had fled from her home. Last Friday Mrs. Murphy secured a divorce at Woodstock, and immediately after the husband came to Kenosha and caused the arrest of Conklin. Conklin was formerly a lawyer, and he has a wife and one child living at Woodstock. He claims his infatuation for Mrs. Murphy caused him to leave Woodstock and accept work as a coachman.

FIVE GORED IN BULL RING.

Spectators, Angered Because Bordeaux Performers Balk.

Bordeaux, Oct. 4.—During a bull fight here today a matador fell dead from excitement. The management thereupon announced the performance at an end, but the spectators protested and refused to leave. The management yielded and ordered the performance to continue, but the performers refused to take any further part in the fight. Some men from among the spectators then jumped into the arena to carry on the performance. The bulls attacked them furiously and gored five of them, one fatally. The management again attempted to stop the performance, but the spectators again protested and attacked the attendants. They varied this performance with attempts to set the amphitheater on fire. The police finally expelled them.

FAMOUS NOSES OFFER PROBLEM

Fixing of Lincoln and Douglas Statues in East St. Louis Puzzles.

East St. Louis, Ill., Oct. 4.—Pictures of Lincoln and Douglas are in demand by the board of education to determine which had the larger nose. The janitor of the high school building has replicas of the two noses, but is unable to tell to which statue each belongs. The statues of Lincoln and Douglas occupy space in the front lawn of the high school, and the weather has washed the staff until the noses, with other members, have fallen off. The school board will have the statues repaired if the nose problem can be solved.

Theatrical Notes

"Why She Was Sacrificed" Tonight.
"Why She Was Sacrificed" will be the bill offered at The Kentucky tonight. The piece is a beautiful romantic drama, presented by a company of artists of unusual merit. The piece has a plot which brings very forcibly a beautiful story of love and honor, and which appeals to the hearts of all present. The production is handsomely staged. An unusually large house expected tonight on account of there being so many visitors in the city attending the immigration convention.

Magnetic.

The comedy "A Race for a Widow" which comes to The Kentucky Monday night, stands in a class all by itself. It is said to be true to life and fairly brilliant with that magnetic quality which for a hectic name we will call heart interest, because it touches the heart, plays upon the emotions, and appeals to the better side of mankind. The comedy is delightful and cleverly blended with a story much stronger than usual in such comedy productions.

Paducah is to have a musicians' union, and an organization will be effected at once. The Paducah Military band is promoting the movement.

Bareheaded Broadway.

From the costumes worn by the women on Broadway in the theatrical district these evenings you might imagine yourself on the boardwalk at Atlantic City, the plaza at Manhattan Beach or the veranda of the States or Grand Union at Saratoga. The no-hat fad has arrived in town.

Instead of wearing a towering, weighty, uncomfortable bunch of straw, feathers and flowers or a kidnap little sailor hat, the Broadway girl these days wears no hat at all. She gets her hair done up in the afternoon, puts on her gown with the elbow sleeves and goes to the theater in comfort.

After all Broadway is the greatest summer resort in this country, so why shouldn't the women live up to it? As a matter of fact, it was the women visiting in New York who inaugurated the custom of going to the theater and to supper at the big restaurants bareheaded. They wander about hatless in their own towns and could see no reason for making themselves uncomfortable when in New York for enjoyment. Their New York sisters were quick to see the twofold advantages of the scheme—novelty and a chance to display new styles in hairdressing.—World.

The Soft-Snap Man.

One of the marvels of a busy season, with its demand for labor in every line, is the number of men who stretch their listless length day after day on the grass of the park benches in the city or doze on the park benches over the sporting columns of the daily papers.

The call to labor is resounding throughout the land. No able-bodied man is now idle except from choice; the wages offered everywhere and in every vocation are living wages, with something to spare for the rainy day.

It is not work, however, that the park idler wants. He would even scorn "employment" unless it came to him with the "soft-snap" guarantee. And it may be as well to say, though the statement may shatter the languid hopes of the soft-snap man, that this guarantee does not accompany the demand for labor that is heard on every hand. Employers were never more willing than now to concede the truth of the assertion, "The laborer is worthy of his hire," nor were they ever less ready than now to part with men who work under compulsion and perform as little actual service for the stipulated wage as it is possible.—Portland Oregonian.

Sight for Shooting at Night.

The development of accuracy in shooting at night has received a double impetus of late in the British service. A new sight has been adopted and is being manufactured and issued with all possible despatch. This sight, a telescope pattern, is defined by electric light for night work. It has been extensively tried under all conditions and has proved a greatly improved 36-inch searchlight has supplanted the regulation 24-inch light, which is capable of defining an enemy at over double the distance of its predecessor. Owing to the excellent training afforded by the gunnery branch our naval gunners can now with the aid of their latest sight and searchlight depend on disabling the enemy at from 3,000 to 4,000 yards on a favorable night.—South China Post.

A Surprised Minister.

A young woman who presides at the organ of one of the churches in Wyndmoor, a settlement on the east side of Chestnut Hill, near Philadelphia, relates an amusing incident.

part. On going into the church last Sunday she observed that a new minister occupied the chancel, and determined to play her best at the instrument. At previous services she had considerable trouble because the blowboy would let the wind out of the organ when she needed it most. So she wrote him a note, saying:

"Blow, blow, blow; blow all the time until I tell you to stop."

She then beckoned for the boy to come to her and gave him the note. He, supposing, the note was for the minister, without opening it carried it to the pulpit and delivered the missive to the dominie. The minister's great surprise and the blushing organist's confusion in consequence of the mistake were about equal.

You Will See More Men at the Horse Show Dressed in Clothes From Weille's Than From Any Other One Place in the City.

On occasions which bring strangers to town, we feel justified in saying in our advertising what all Paducah people know—viz: that the very best of men's and boys' high-class ready-to-wear can be had here. And we invite Horse Show visitors to call and see whether or not our claims are backed up by our merchandise.

Form-Fitting Carments

In addition to full dress and semi-dress suits (ready to put on and wear to the Horse Show) we suggest, as the newest and best things for general wear, the new form-fitting garments. The body-tracing lines are very decided; the coats are long, with deep center vents and creased or plaited side seams; athletic shoulders are the vogue; and in overcoats and raincoats the skirts are ample and flaring. Quite a step back toward the French styles of Louis XV. The new shaped suits \$15 to \$45; overcoats \$15 to \$25; raincoats \$10 to \$35.

Let us suggest also a Fancy Vest for the Horse Show—\$1.50 to \$7.50.

Full Dress Furnishings

Dress Shirts—E. & W., Manhattan and McHardie brands, \$1 to \$2.50.
Half Hose—Black silk; self-figured or clocked, \$1 to \$3.50 a pair.

Reefers and Mullers—Pearl, white and black silk, \$1 to \$4. E. & W. and Curtis & Co. brand Collars in new shapes. Gloves, neckwear, fobs, studs, etc. Everything for evening wear in high-class haberdashery.

Dress Shoes.

Nettleton and Stacy Adams \$5 to \$7. Patent colt, with dull calf top. Burnett last; button or lace; military heel. Newest dress style.

Other shoes, in all styles and leathers, at \$3.50.

Daily Thought.

"This is an age in which the qual-
ity of backbone is not strained."

TO WHOM CREDIT IS DUE.

This day is an important one in
the development of southwestern
Kentucky, which through the work
of the immigration convention in ses-
sion here today, is promised an in-
creased population of thirty pro-
ducers. It is a significant one to Pa-
ducah, which is entertaining repre-
sentatives from a territory tributary
to her commerce. To the members
of the Commercial club, who have
taken time in the midst of business
cares, the indicated success of the
project fostered and promoted by the
organization must bring a satisfac-
tion akin to value received for their
trouble. In fact, all the citizens
must feel a pride in the work of the
organization. But to one man this
convention is a consummation that
writeth sure, unadulterated happiness
all over his features. Secretary D.
W. Coons, of the Commercial club, is
borne up by a bliss that transcends
the combined essences of pride and
satisfaction. He has done a double
work and he has proved himself
equal to an occasion that would have
halted a promoter, who had a fortune
staked on the result of his scheme.
Whoever may take up the immigra-
tion movement now and push it to
success, Secretary Coons will always
be entitled to the credit for coaxing
the idea into organized form, and he
has worked his friends, his board of
directors, the press and himself to
the limit of endurance. He had no
mercy on anybody who could possi-
bly promote the success of the con-
vention, but he was just hard on
himself as on the others, and he has
made it a success, and so, those
whom he worked the hardest, thank
him the most.

Secretary Coons not only worked
up interest in the immigra-
tion movement all over this section,
but he first had to swing his own or-
ganization into the work. It got be-
hind him and he set a pace in
"boasting" that would make a circus
press agent decide to take a course
in publicity. Not a nook in south-
western Kentucky failed to receive
all the news of this coming conven-
tion through the press. Not a cor-
ner was slighted when it came to
spreading the gospel of immigration.
Not a prominent man failed to re-
ceive a special invitation, and all
mayors, county judges, commercial
clubs and kindred organizations were
put on their mettle to do something
for their sections, and results were
soon apparent. Then the untiring
secretary went over the fluid and se-
cured the personal, written pledge of
every delegate to attend. Every new-
spaper in this section of the state
took part in the work of agitation
and back of it all was the secretary
and back of him the Commercial
club.

It looks simple enough, and it was

after the movement was started, but
Secretary Coons can tell of moments
of dark doubt when he could see no
hope for immigration to south-west-
ern Kentucky. He proved the qual-
ity of his mettle at those times; for in-
stead of giving way to despair he
fought desperately, and he won.

Failure in this work would have
meant to him what failure in a busi-
ness enterprise means to other men.
He staked his reputation, his fitness
for this work on this venture, and
then threw his whole heart into his
effort.

Secretary Coons has a right to be
happy; for, if he did a double work
in promoting this convention, the re-
sult has been a double blessing: It
has inspired the confidence of the citi-
zens in the Commercial club and the
confidence of the Commercial club in
its secretary.

When a man in public office, in an
executive position, allows his personal
feelings against individuals to ap-
parently dominate his conduct, it is a
misfortune. But when an executive
official exercises the functions of his
office to harass those whom he owes
a business grudge, we are moved to
inquire to what extent he might be
induced to favor his allies in busi-
ness. Such a man may unjustly be
treated as a hoodler, but we have the
right to meditate and ponder well
the question, whether by the same
sort of ethics he might not induce
himself to relent, should the grudge
be removed by overtures moving to-
ward him. Men in public office
should, above all other men, avoid
the appearance of evil, but most of
all they must beware of using their
official positions as a club in private
business affairs.

Who is carrying on the campaign
against the distribution of free seeds
by congressmen, through the agency
of the news bureaus for the dissemin-
ation of gratuitous information? Some
of the letters even go so far as to
assert that the farmers do not de-
sire the seeds, but we opine that
when the farmers get tired of free
seeds a campaign against their dis-
tribution will be superfluous.

There is something strangely akin

to logic in the position Governor
Beckham assumes. If you don't like
the Democratic administration vote
the Republican ticket.

Maybe Governor Beckham let it
rain this time so the crowd would go
to The Kentucky theater, last night
instead of the horse show.

To distinguish their new method
of balloting at elections, the Hoosiers
will have to call theirs a "mechanical"
voting machine.

It rained hard enough to wring the
clouds dry and turn them wrong side
out, but we didn't see any silver lin-
ings.

Lieutenant Laham, the balloonist,
went over to Europe and beat the lo-
cal champions right in their own air.

Putting on the lid is a dry ques-
tion.

Philadelphia, Oct. 4.—Thomas
Hudson, aged 62 years, late last
night was mistaken for a burglar by
Robert Stanton, aged 18, and shot
and killed. The Stanton family was
awakened during the night by a
noise in the house. Believing it was
a burglar, young Stanton got a re-

the intruder fell, mortally wounded.
When the lights were turned on, the
supposed burglar was found to be
Hudson, a neighbor. Stanton was ar-
rested, but subsequently released on
his own recognizance.

IN THE MOONLIGHT HORSE SHOW GIVEN

Tonight's The Night in Paducah
This Season.

Rings, Boxes and Grand Stand in
Excellent Condition and En-
tries Numerous.

OPENING PROGRAM SATURDAY

The horse show will be a success.
After two weeks of gloom and
rain, the sun, in all its brilliancy,
burst forth this morning to make glad
the hearts of all lovers of horses and
bring joy to the show promoters.

It means success to the horse
show and tonight will doubtless see
the grand stand at Wallace park
packed. Last night the program was
not carried out because of the incle-
ment weather, but several hundreds
went out thinking the show would be
carried through. Wet grounds made
it impossible. Several extra events
were put on, for the entertainment
of the people who had come out.

The first event was for the best
roadster, and was captured by Pres-
ident Robert B. Phillips, of the
horse show association, driving Mr.
Friedman's "Leo."

For the best five gaited saddle
horse, Mr. James M. Lang, on "Re-
bel Dare," won over Mr. Van Meter's
"Gypsy," and Mr. Boswell's entry.
Mr. James C. Utterback and Mrs.
George Flournoy won the prize for
the best couple riding, with Mr. and
Mrs. Henry Rudy second.

Ben Frank, driving Elsie R. cap-
tured the prize in the pacing event,
with Mr. Nicholson in second place.
Dr. Voris gave an exhibition of
the Musical drill, which was greatly
enjoyed. This event is on the pro-
gram for Saturday night.

Nearly all the boxes were occu-
pied last night, and there were two
hundred people in the grand stand.
The boxes and stand presented a
pretty picture with their hosts of
well dressed people. The tasteful
decorations and the lighting effects
of the grounds were brilliant.

In addition to the regular pro-
gram tonight "The Belvedere Cup"
will be awarded the best lady rider,
and the light harness champion
event postponed to Saturday night.
Instead, tonight the five gaited
championship will be added.

Notes.

The Paducah Military band gives
some attractive numbers each night.

The brilliantly lighted grounds,
the scores of pretty horses, and the
hosts of handsomely dressed people
all make an inspiring sight, and

cause many a heart flutter.
The grounds are remarkably dry
after the hard rains, and the stand
is as neat as a parlor, so there is no
danger of soiled clothes.

Col. Gus Singleton, on a dashing
steed, is a typical Kentucky "Kur-
nell." The colonel is the official an-
nouncer for the show, a part he es-
says with grace.

"The moonlight is the softest
in Kentucky."

If the night is clear, and every
indication is that it will be, it will
be a fine night for the show, as the
moon will be on duty.

The great number of fine horses
owned by Paducah people will be
a revelation to the horse show pa-
trons, and some of the best premi-
ums will stay here. Mark the tip.

"I never expected to see such a
brilliant picture in Paducah as this
show," said an old time citizen last
night. "It compares favorably with
anything I have seen in the larger
cities."

DEATHS OF A DAY

Clarence C. Graves.

Clarence C. Graves, 28 years old,
died at the Illinois Central hospital
yesterday afternoon at 4 o'clock from
typhoid fever. He had been sick
three weeks. Mr. Graves was born
and spent his early youth in Hitley,
Tenn. For the last sixteen years he
had lived in this city and had been
an efficient employee of the Illinois
Central railroad in the yardmaster's
office as chief clerk. His home in
the city was with M. B. Ruberson,
819 North Sixth street. In February
last he married Miss Laura Reitz, of
this city, and besides his wife leaves
his parents, four sisters and one
brother in Manila, Ark. In his life
he had seen much of the world,
working for many different rail-
roads. His record with the Illinois
Central here was good and his pro-
motion was steady. The funeral will
be held tomorrow afternoon at 2:30
o'clock at the residence of Mr. Gus
Reitz, on Broadway, with burial in
Oak Grove cemetery.

Thomas Shields.

Mr. Thomas Shields died at Daw-
son Springs at 12:15 o'clock this
morning of dropsy. Mr. Shields was
15 years old and lived at Lowes, Ky.
He was born and raised in Graves
county. Mr. Shields left a wife and
two children, Mr. Tommie Shields
and Mrs. Giralsh Helton, of Lone
Oak. The body will be brought from
Dawson Springs at 4:30 o'clock this
afternoon and taken to the home of
his sister, Mrs. J. M. Thomas, 823
North Seventh street. The burial
will be at Mt. Kenton tomorrow at
11 o'clock.

Cuts the Fuel Bill in Half For Soft Coal, Lignite or Hard Coal

As you know fully one-half the carbon available for heat in soft coal is gas, the entire gas
supply used for fuel and illumination in many cities and towns being made from common soft coal.
The ordinary stove in burning soft coal allows this gas half of the fuel to pass up the chimney
unburned, thus wasting it as a heat producer.

Cole's Original Hot Blast Stove, by means of the patented Hot Blast draft and other
patented features, distills this gas from the upper surface of the coal, utilizing it as a heat producer
along with the fixed carbon or coke in the coal, thus burning all the coal. This is why

Cole's Original Hot Blast

Saves the Dollars and makes a ton of common \$3.00 soft coal or
lignite do the work of \$9.00 worth of hard coal.

Your old stove and imitation Hot Blast are not air tight,
do not save the escaping gases and do not give you a warm
house at night. You cannot afford to say to yourself "My
old stove will have to do this winter." The old stove is
eating up the price of a new stove every year. Not only
that, but on top of the cost is the unsatisfactory result it
gives. It is always out the coldest morning.

Even Heat Day and Night—Fire Never Out

Cole's Hot Blast is so perfect in construction that fire
keeps all night, and when the draft is opened in the morn-
ing will burn two or three hours with the fuel put in the
night before. No other stove does this. Fire, therefore,
never goes out, and the rooms are kept at an even tem-
perature all the time.

—OUR GUARANTEE—

- 1.—We guarantee a saving of one-third in fuel over any lower draft stove of the
same size, with soft coal or slack.
- 2.—We guarantee Cole's Hot Blast to use less hard coal for heating a given space
than any base burner made with same heating surface.
- 3.—We guarantee that the rooms can be heated from one to two hours each morn-
ing, with the soft coal or hard coal put in the stove the evening before.
- 4.—We guarantee that the stove will hold fire with soft coal 36 hours
without attention.
- 5.—We guarantee a uniform heat day and night, with soft coal, hard coal
or lignite.
- 6.—We guarantee every stove to remain absolutely air tight as long as used.
- 7.—We guarantee the feed door to be smoke and dust proof.

For Hard Coal—Saves Half

The perfect control over the drafts, the slow economical
combustion and the large positive radiating surface make
Cole's Original Hot Blast the most economical and the best
Hard Coal stove made.

Cole's Hot Blast is the modern heater and will save its
cost in fuel every winter. Buy one for your home now.

Would You Lose \$50.00 in Fuel to Save \$1.00 on the Cost of Your Stove?

That is what you do when you buy a cheaply constructed, putty jointed, showy made imitation stove. Like all
successful inventions, Cole's Original Hot Blast has many inferior imitations, avoid them.
They all lack the patented features and careful construction, which make the Original Hot Blast a great success.
They do not stay tight and soon open seams and cracks which render them worthless as fire keepers. See the name
"Cole's Hot Blast from Chicago" on the feed door. None genuine without it.

WITH DRUGS

**PADUCAH GIRL WAS FIED UN-
TIL UNCONSCIOUS.**

**Young Man "Doped" Her With Soda
Water Is Her Belief, in Louis-
ville Store.**

Louisville, Oct. 4.—Her mind a blank, probably due to the effect of a drug which she believed was slipped into a glass containing soda water, which she later drank, Miss Enola Oliver, a pretty eighteen-year-old country girl, staggered into the restaurant, 1145 West Market street, over which she and her sister have rooms, late Saturday afternoon, and sank unconscious on the bed. Her purse, which had contained \$4.75, her week's earnings, was empty, and the belief is that she was robbed. The police were notified of the case yesterday, and began an investigation. Miss Oliver was still too weak to leave her bed yesterday afternoon, but was able to tell what she knew of her experience.

"I am employed at the candy factory of Bradas & Ghens, on Fifth street, said Miss Oliver. "I quit work at noon Saturday and went home."

"As I stepped from the door of the candy factory onto the street, I met a young man I have known for some time. He told me he was going to leave that afternoon for Cincinnati and wanted me to accompany him. Of course, I refused, and then he attempted to frighten me by making threats of what he would do. He finally suggested that we drink a glass of soda water, and I accompanied him into a drug store. From that time until I found myself in my own bed at home I haven't the slightest memory of what occurred."

Miss May Oliver, the fifteen-year-old sister of Miss Enola Oliver, said yesterday afternoon that until a few weeks ago, she and her sister lived with her uncle and aunt, Mr. and Mrs. John Oliver, at Paducah, Ky.

Mr. John Oliver is a carpenter and lives at 1106 Third street.

Unless the United States pure food commission changes its mind, the people of the United States will soon be using granulated and other sugars that have a distinctly yellowish tinge. The commission has decreed that no mineral bluing substance be used in bleaching sugars. Sugar chemists say they use four pounds of a mineral bluing substance to every 1,000,000 pounds of sugar, for bleaching purposes. This the sugar chemists say, is not adulteration; that it is merely purification by a thoroughly healthful process. The pure food commission cannot see it in that light and insist that the whitening process be abandoned.

IMPROPER NOURISHMENT.

**Too Rich Food as Bad as Not
Enough Food.**

Chicago, Oct. 4.—The movement started by Chicago clubwomen for feeding breakfastless school children of the Jones public school and other schools in congested districts received a severe jolt yesterday. President Emil W. Ritter, of the board of education told members of the Progress Woman's club that the children of parents living on Lake Shore drive and Sheridan road are just as poorly fed as any of the children of the First ward. "There is as much improper nutrition among the children on the Lake Shore drive and Sheridan road as among the children in the poorer quarters of the city," he said. "If you are to start such a restaurant you should find a more suitable location than in South State street. Children who are overfed and fed only on the richest and most delicate foods often are in a worse condition than those who live on a simpler fare."

Telephone Burglar Alarm.

A telephone girl tells the Philadelphia Record of a new use of the telephone. Three women occupy a house near where the girl lives. They had been away in the country for some time, when one day the operator was surprised to hear one of them call up a pay station, asking for her own home number. The girl says: "I rang the phone several times, but, as the house was closed, there was no answer. Then my curiosity got the better of me and I disclosed my identity and asked why she was calling her own number when she knew the house was closed. 'That's just the point,' came the response over the wire, rather tartly: 'We wish to scare any burglars away if there are any in the house.'"

WATER NOTICE.

Patrons of the Water Company are reminded that their water rent expired September 30. Those who desire to renew their should do so before it is forgotten, as all premises not paid for on or before October 10, will be shut off.

The prompt payment of water rents will save vexation and cost in the consumer, and unpleasant duties and annoyance to the company.

**F. L. Leaser Severs Artery and Ten-
dons in His Hand While Lower-
ing Sash.**

While the rain storm yesterday afternoon was at the height of its fury F. L. Leaser, conductor on car No. 102, of the depot line run, was seriously injured while trying to lower a window and had to be carried to the office of Dr. R. E. Hearne for attention.

Leaser was summoned by passengers at Seventh and Clark streets to lower the window. He put all his weight on the sash and the glass gave way. His right hand went through and was cut clean to the bone from one side of the hand to the other. Two tendons were severed and an artery cut. A handkerchief was tied about the wound and the flow of blood checked until the doctor was reached. The tendons were sewed together and the artery closed. Leaser will be able to use the hand again but may be crippled.

The car was being run by Motor-man J. T. Flowers and was en route to the depot.

**Tal Lynn Struck Guy Dameron and
Killed Him.**

Yesterday afternoon about 4 o'clock Guy Dameron, 15 years old, was killed at Brookport during a school boy fight with Tal Lynn, 12 years old.

The Dameron lad was the son of William Dameron. They were coming from school when the lads got into a fight and the Lynn boy struck the other a terrific blow in the pit of the stomach.

The Reason

In the ordinary heater the draft enters the front, passes up through the fire and out the flue at the top. In this way only about 60 per cent of the burnable properties of your fuel are consumed, the rest passes up the flue unburned in the form of gases and smoke. In the

WILSON HEATER

the Hot Blast Down-Draft enters from the top, circulates throughout and over the fire and produces perfect combustion, which consumes all of the burnable elements in your fuel; thus the Wilson will give you 40 per cent more heat with a given amount of soft coal than any other heater, or in other words, your fuel bill will be reduced 40 per cent.

BIG TIME

GOT BIGGEST ROOM IN BIGGEST HOTEL IN DALLAS.

Paducah's Big Chief, Chairman of the "Big Man's Committee at Convention.

Chief James Wood, of the Paducah fire department, will leave Saturday for Dallas, Tex., to attend the convention of the International Fire Chiefs' association, which will open in Dallas the first of next week. The big chief engaged the biggest room in the biggest hotel with the biggest bathroom in Dallas several weeks ago, being the first member to secure accommodations ahead. He said today that he was going for a big time, being chairman of the "Big Man's" committee.

Chief Wood is by many pounds and inches the largest chief in the association and is said to be the biggest fireman in the world. He has served as chairman of the "Big Man's" committee for several years. This committee is for fun and pleasure purposes only and has made hits at conventions ever since it was organized. Chief Wood has a two weeks' lay off and will be the guest of chiefs in several cities after the convention has ended.

Capt. Jake Elliott of the No. 4's, ranking captain in the department, will be in charge during Chief Wood's absence.

ONE EXPANDED OR OTHER CONTRAICTED TOO MUCH.

At Any Rate Judge Reed Cannot Use Big Seat on His Bench, and Gets Another.

When the elegant furniture from the federal court room at the custom house was removed to the county court house and placed in the circuit court room, one would not have thought that Circuit Judge Reed would ever discard the big bench chair, yet he had to and today in fiscal court a new chair was ordered for him and a committee appointed to purchase it at once. The chair sent from the postoffice has shrunk or else Judge Reed has expanded; at any rate he cannot sit in it comfortably and handed it down to the county judge. County Judge Lightfoot found it comfortable.

Decline of Beer Drinking.

Local patriots in Munich are dejected at the latest statistics concerning the consumption of their famous beer within their own borders. Only a few years ago they proudly boasted that the annual consumption per head of the population was 115 gallons. This has now sunk to the mere bagatelle of 65 gallons. The shrinkage is attributed to the gradual spread of temperance principles, to the anti-beer propaganda in public schools and to the fact that employers of labor are ceasing to give free beer to their work people.—London Telegraph.
